Thank you for choosing Texpo Energy! **This price disclosure is an example for a small commercial customer with a non-demand meter.** Texpo is pleased to provide you with this fixed rate plan. The above price disclosure is based on average usage patterns and the fixed base energy price disclosed in your REP Switch Authorization Form, plus all charges from your Transmission and Distribution Service Provider ("TDSP") and the Electric Reliability Council of Texas ("ERCOT") (collectively, "Delivery Charges"), and Public Utility Commission of Texas ("PUCT") fees and assessments.

Please see your Terms of Service for a full description of your actual price, and other applicable terms and charges. Your base energy price is a fixed price, and your average total price for electricity service will vary according to your monthly usage, your maximum instantaneous peak load, and Delivery Charges (as defined in your Terms of Service) at the time of your usage, as permitted by the Rules of the PUCT (<http://www.puc.state.tx.us/rules/subrules/electric>).

The above prices in the table do not include taxes or, for customers in the Oncor service area, the TDSP Underground Facilities and Cost Recovery Charge authorized by some cities. See your TDSP's tariff for a list of cities and authorized charges.
