Thank you for choosing Texpo Energy! Texpo is pleased to provide you with this 100% renewable variable price product. The above price disclosures are based on average usage patterns and an initial base energy price of 8.6 ¢ per kWh for the CenterPoint area, 8.8 ¢ for the Oncor area, 9.0 ¢ for the TNMP area, 8.7 ¢ for the AEP-Central area, 8.5 ¢ for the AEP-North area, and 8.7 ¢ for the Sharyland area, plus all charges from your Transmission and Distribution Service Provider ("TDSP") and the Electric Reliability Council of Texas ("ERCOT") (collectively, "Delivery Charges"), a \$7.95 monthly customer-service-meter-fee (Texpo will not charge the monthly customer-service-meter-fee for each billing cycle in which you use at least 1,000 kWhs), and Public Utility Commission of Texas ("PUCT") fees and assessments.

Please see your Terms of Service for a full description of your actual price, and other applicable charges. Your actual average total price for the electricity service will vary according to your monthly usage, your maximum instantaneous peak load, costs of supply, market conditions, and the amount of Delivery Charges (as defined in your Terms of Service) at the time of your usage, as allowable under the Rules of the PUCT (<http://www.puc.state.tx.us/rules/subrules/electric>).

The above prices in the table do not include taxes or, for customers in the Oncor service area, the TDSP Underground Facilities and Cost Recovery Charge authorized by some cities. See your TDSP's tariff for a list of cities and authorized charges.
